

## Can We Help You?

There are some men living in the 20th century who are still using 19th century methods. They do not realize that the day for long time credit and consequent high prices is past.

With the good crops that this district now produces and the resultant prosperity, farmers are in a position to discount prices. This should please everybody—no bad bills to pay—no long faces. The same deal to everybody.

## Matrimonial Supplies Wanted.

"Go west, young man," has for long been the advice to rising generations of the male kind. Apparently, however, the time has now arrived when the advice, accompanied by a railroad ticket, should be given to the ladies. Ontario in common with the more crowded centres of Europe, is suffering from an over-supply of ladies. In the west matters, according to an almost pathetic letter addressed to Mr. F. G. Morley, secretary of the board of trade, are exactly opposite. Mr. Thomas Fitzgerald, giving his address as 1412 Main avenue Spokane, wishes the general secretary of the board of trade to place him in communication with a matrimonial agency. He is interested in a developing district of Alberta, where young men lack the refining influence of the ladies. Naturally, being an Ontario man, Mr. Fitzgerald believes that his mother's native province can supply a long-felt want, but in furthering his purpose Mr. Morley can not help him, except in giving publicity to his communication—Toronto Globe.

The appeal sent out by Mr. Fitzgerald for young women as helpmates for the bachelors around his Crossfield home has commenced to bear fruit already. The first application, however was wrongly addressed and was stopped at Calgary instead of coming on here as, no doubt, Mr. Fitzgerald intended. The following is the application:—

"To the Mayor of the Town, Alberta, Western Canada, Ontario.

"I saw in last night's Telegram you are in want of young women to come out as wives for young men in Alberta. Do you think I should suit one of your applicants? I am of medium height, dark and my age is 34 last June. I only came out to Canada last September. I belong to Staffordshire. I have no friends out here at all. Perhaps you will kindly send me a line in reply from you. Respectfully,

"Annie Bush, 44 E. Charles Street, Toronto, Canada."

### Local Improvement Dist. 14-W-4

The first meeting of the Council for this year was held at the home of the Secretary on Saturday 30th January at 2 o'clock.

The Councillors present were as follows: Division I.—Geo. M. Carleton. Division II.—W. P. Secrest. Division III.—R. Young. Division IV.—R. J. McBean. Division V.—J. A. Copley.

The Secretary called the meeting to order and asked for nominations for the position of Chairman, and on the motion of Mr. Carleton, seconded by Mr. Young, Mr. W. P. Secrest was nominated.

There being no other nominations Mr. Secrest then took the chair and assumed control of the affairs of the district for the year.

Mr. Young moved, and Mr. Carleton seconded that we re-appoint Mr. Magee as our Secretary-Treasurer at a salary of \$200.00 per annum. On vote being taken all the members present unanimously voted for Mr. Magee's appointment.

The Secretary then read the minutes of the previous meeting, and on motion of Mr. Carleton, seconded by Mr. Young were adopted as read.

Mr. Carleton moved that the assessment for the year be 2 1/2% per acre, Mr. McBean seconded.

Mr. Young moved an amendment that the assessment be 6% per acre, but as Mr. Young could not find a seconder his amendment fell down, and the assessment for 1909 will be 2 1/2% per acre as before.

It was agreed to provide labour notices for road matters in all districts.

R. J. McBean moved, and J. A. Copley seconded that all taxes be payable at par. Carried.

The Secretary was instructed to have assessment roll completed as soon as possible.

Mr. Carleton moved that all accounts standing against the district and the Returning Officers fees, also the balance of Secretary-Treasurers salary, be paid. Carried.

Mr. Young moved, and Mr. Carleton seconded that the council meetings be held at the Secretary's house as before. Carried.

Mr. Carleton moved, and Mr. Copley seconded that the proceedings of council

be published in the local papers. Carried.

Mr. McBean then introduced the subject of the gopher pest, and after an open discussion Mr. Carleton moved that the Secretary be instructed to write Department of Agriculture asking for information with regard to the laying out of poison, and for any other information Department can give. Mr. McBean seconded and this was carried unanimously. This concluded the business, and the next meeting was arranged for April 3rd at 2 o'clock.

### HOCKEY.

(By an Airdrie Correspondent.)

Accompanied by about thirty supporters the Airdrie Hockey Team journeyed to Crossfield on Saturday afternoon and took the Northern boys into camp by a score of 8 to 1. At that the score hardly represents the play which was almost entirely in Crossfield territory, only the fine work of the Crossfield goal keeper keeping the score from mounting well into double figures. Near the end of the first half Elmer Hallman had to retire with an injured ankle as he was deliberately slashed by a Crossfield player. The referee "didn't see" it done. One of the Crossfield men was dropped to even up but both came back in the second half. Fiske was ruled off just before half time though his exact offence appears to be a mystery to every one but the referee. Half time score was 6 to 1 in Airdrie's favor.

The second half started with Airdrie playing one man short for a few minutes. Clark was not quite ready to come back but even that made no difference. Airdrie let up considerably in this half and only put through two more. The whole Airdrie forward line put up a good game and Clark's shots from centre kept the Crossfield defence busy.

The teams lined up as follows:

Crossfield	Airdrie
C. McKay	Goal
D. McKay	Point Ed. Rosenberger
H. A. Murray	C. Point
J. H. Johnston	Rover
J. Martin	Centre W. S. Waugh
McKay L.	Wing E. C. Hallman
N. MacCrimmon	R. Wing K. R. Fiske
Referee	Johnstone McCool
Time Keeper	James McCormack
Gordon Urquhart	

Summary:

1st goal Airdrie	Herb. Hallman
2nd	Waugh
3rd, goal Airdrie <td>Fiske</td>	Fiske
4th	Crossfield J. Martin
5th	" Airdrie Elmer Hallman
6th	" " Herb. Hallman
7th	" " Waugh
8th	" " "
9th	" " "

Notes on the Game:

Ed says it was cold standing at his end of the ice.

No doubt Referee McCool did his best. Messrs. Glover, McNeil and McCormack looked interestingly picturesque in their decorations.

Noah Clark had his feet frozen in the first half but was able to go on again after half time.

The boys appreciated the presence of their friends, particularly the ladies.

An impromptu dance was held in the Oddfellows' Hall in the evening which was thoroughly enjoyed.

The Crossfield team have promised to "think over" the invitation for a return game.

## R. C. Concert.

The Catholic Church concert held last Thursday night was a great success and it would have been difficult for more to have attended the entertainment as the hall was crowded to its utmost capacity. The orchestra comprised Mr. Thomas priests and others from Edmonton, Wetaskwin and elsewhere, was a capital one. Miss Lerouge's playing on the piano was remarkably fine and regret was expressed that several items for which she was on the programme had to be left out for lack of time. Mr. and Mrs. Schofield and Mr. Magee, our local entertainers, are too well known in Crossfield to require more said regarding them than that the scores they received were well deserved.

A duet sung by Mrs. Featherstone and Miss Nellie Smythe, a piano solo by Miss Oskider, a violin solo by Mr. Townsend, and an action song by the children, all evoked well merited applause. The raffling of the home and buggy resulted in a win for Geo. O. Davis, of Crossfield.

## No End To Eczema

EXCEPT BY ACTIVE AND PERSISTENT TREATMENT WITH THE GREAT ECZEMA CURE, Dr. A. W. Chase's Ointment

When left to itself, eczema runs on indefinitely, causing keen distress from itching and cowering the body with sores that refuse to heal. Even with careful treatment, eczema is obstinate in yielding to curative measures, but the regular and persistent use of Dr. Chase's Ointment is the most certain means known of overcoming this torturing disease.

Mrs. Robert Clendenen, Welland Station, Ont., writes—  
"For three years my daughter, Fanny, was afflicted with eczema in an intense and persistent form, and for nine days she was totally blind. The burning, itching and discomfort were horrible, her entire face was completely raw for months, and the distress so great that she could not sleep."

"The best efforts of two eminent physicians failed to even mitigate her awful suffering. One day when I was low-spirited over my daughter's condition, Dr. Chase's Ointment was recommended to me and to our surprise Fanny was helped with the first box and she has since been entirely cured by this treatment."

"Her face is now as smooth as a baby's, and she is in splendid health. The credit for this cure is entirely due to Dr. Chase's Ointment, and I cheerfully give you permission to state my daughter's case, hoping that it will lead many others to secure the same good results."

There are a score of ways in which Dr. Chase's Ointment with its extraordinary soothing, healing properties, is useful in every home; 60 cents a box, at all dealers, or Edmanston, Bates & Co., Toronto.

### The Pursuit of Knowledge.

In commenting on the largely increased attendance at the section reference department of Pratt Institute the annual bulletin gives some instances of the eagerness and the patrons to make the most of their time and opportunities. "A man has come from a distance and worked here all afternoon and evening. One such explained that when he had a chance to work here he could not spend time eating."—N. Y. Tribune.

While more prevalent in winter, when sudden changes in the weather try the strongest constitutions, colds and coughs and ailments of the throat may come in any season. At the first sign of derangement use Bickel's Anti-Consumptive Syrup. Instant relief will be experienced, and use of the medicine until the cold disappears will protect the lungs from attack. For anyone with throat or chest weakness it cannot be surpassed.

Try watering your horses before feeding in the morning, thus slaking their thirst and at the same time washing their stomachs ready to receive the morning feed, where, being properly moistened with water, it will remain until thoroughly digested.

Repeat it:—"Shiloh's Cure will always cure my coughs and colds."

"For the past four years we have been calling for 'Alice Blue' remarked the physician, 'but now I suppose 'Taffeta' will be the most popular.'—Philadelphia Ledger.

### Canadians in England.

The best noisiest debater in the British House of Commons is a Canadian, Mr. Bonar Law, who fought the Government. He will shoot up at the end of a week's debate and without a single note before him, with only the faces of his opponents and the cold, hard bon of the hon. member, box to encourage him, he will pick up one by one all the arguments of his opponents on all the previous days, and will carefully, minutely, and crushingly answer them. But let some unwary Free Trader challenge one of Mr. Bonar Law's quotations. He has eight or nine pockets. Quick as thought he dives a hand into a pocket. Always the right pocket. He pulls out a cutting. Always the right cutting. He reads out an extract which makes the interrupter sorry he spoke.

Another superlative is Dr. Macnamara, also a Canadian. He is the briefest speaker in the House of Commons. It was a great pity they go in to the Government benches, where responsibility and office sometimes effle the best things one can do in the way of debate. Yet he deserved the honor more than most.

### Esperanto.

"When I first started out hunting apartments I went through a long, painful dissertation," said the woman with a haughty look, "and I said, 'I go in and say to the elevator man or janitor: 'Apartments? Rooms? Prices? Keep 'em.' I get along just as well, and I save lots of time. Try it.'"—New York Times.

Only One "BROMO QUININE" That is LAXATIVE BROMO QUININE. Look for the signature of E. W. GOREAU. Use the world over to Cure a Cold in On Day. 25c.

The youthful George Washington had just declared that he couldn't tell a lie.  
"How would it look," he said, "for a future President of the United States to be eligible for membership in an Ananias club?"  
Thereupon he trimmed the cherry tree he had cut down, and proceeded to make a big stick out of it.—Chicago Tribune.

The Pill That Leads Them All—Bile Beans are the most portable and compact of all medicines, and when easy to take are the most acceptable of preparations. But they must be used in their power to be popular. As Parlee's Vegetable Pills are the most popular of all pills they must fully meet all requirements. Accurately compounded and composed of ingredients proved to be effective in regulating the digestive organs, there is no surer medicine to be had anywhere.

### New Idea in Tuberculosis.

Some particulars are given in the British Medical Journal of a proposal to provide an ocean sanatorium for tuberculosis. The suggestion is to fit up a sailing ship of about 2,000 tons for not less than fifty patients, and to be provided with a large and well ventilated cabin. The ship would be used for what is commonly called the verandah treatment. The intention of the promoters is that the ship shall cruise in the neighborhood of the Canaries, where it will have the advantage of the trade winds and an equable climate, while a port will not be far distant in case of the onset of bad weather.

Minard's Liniment cures Gargat in Cows.

Landlady—Mr. Star, now that we are seated about the board to partake of our Christmas turkey, does it not occur to you that there were only two turkeys on the Ark with Noah?

Mr. Star—Indeed, I sincerely hope this one is the last of the two.—December Circle Magazine.

### Minard's Liniment Co., Limited.

Gentlemen, we have used MINARD'S LINIMENT from time to time for the past twenty years, and we can recommend it as a prominent physician of Montreal, who called it the "great Nova Scotia Liniment." It does the doctor's work it is particularly good in cases of Rheumatism and sprains.

G. G. DUSTAN, Chartered Accountant.  
Halifax, N. S., Sept. 21, 1905.

### Better Chance for Revenging.

A Chicago man who once permitted himself to be persuaded to back a theatrical company was seated in his office one day when he received a telegram from the manager of the show. The troupe was somewhere in Minn., and the program read: "Train wrecked this morning and all scenery and baggage destroyed. No member of the company injured. What shall I do?"

The answer sent back by the Chicago man was as follows:

"Try another wreck and have the company ride in the baggage car."—Chicago Record-Herald.

Hub—But if you like the young fellow, Kate, why do you object to our daughter marrying him?

Wife—Oh, she'll marry him for all that; but I want to give her a chance to say when they quarrel that "Mother didn't want me to marry you, anyway."

## "It Saved My Life!"

"I owe my life to PSYCHINE, what better testimony could I possibly give," says Mrs. Wm. Wilson, of Essex, Ont., on August 1st, 1905.

This was in response to an inquiry from the Dr. T. A. Slocum, Ltd., as to whether or not the testimonials given by Mrs. Wilson on May 27, 1904, still held good. At that time she said, "Some twelve years ago I was taken ill with a severe cold on my lungs. Night after night I was compelled to sit up all night to relieve myself of the pain in my lungs. For two years I doctored continually with three or four different doctors, but received no help whatever. A friend advised me to try your medicine, and I did so. Within two months from taking PSYCHINE I gained 90 pounds, and my health rapidly grew better and in a short time I was quite well. Today, I am a strong woman and owe my life to Dr. T. A. Slocum's medicine."

PSYCHINE is indeed a Health giver, and the Greatest of Tonics, containing exceptionally Life-Giving properties. Send for a Free Trial and mention this advertisement. PSYCHINE is sold by all druggists and stores, 50c and \$1.00.

### Strong in Possessions.

"It is true," said a friend, "that you have amassed a great fortune. But your grammar."

"Never mind the grammar," said Mr. Dustin Black. "This is an era of specializations. I may be weak in some branches, but I'm an authority on the possessive case."—Washington Star.

Pain Pills Before It.—There is more virtue in a box of Dr. Thomas' Electric Oil as a subduer of pain than in gallons of other medicine. The public know this, and therefore few households throughout the country where it cannot be found. Thirty years of use have made it a household medicine throughout the western world.

"The audience is throwing vegetables," complained the star of the "Siberia" company.

"Nothing but vegetables!" retorted the caustic manager. "Go out in front and tell them that the dogs have also got to eat."—Louisville Courier-Journal.

Repeat it:—"Shiloh's Cure will always cure my coughs and colds."

"Write me an example of simplified spelling," said the teacher, and Tommie wrote: "The man who carves monuments urns his living."—Philadelphia Ledger.

No matter how deep-rooted the corn or wart may be, it must yield to Hollo-way's Corn Cure if used as directed.

Condescending Chappie—I really can't remember your name, but I've an idea I've met you here before.

Nervous Host—Oh, yes, very likely. It's my house.—The Sketch.

### SLEEPING DRAUGHTS AND SMOOTHING MIXTURES

A wise mother will never give her little one a sleeping draught, soothing mixture or opiate of any kind except upon the advice of a competent doctor, who has seen the child. All these things contain deadly poisons. When you give your own or young child Baby's Own Tablets you have the guarantee of a government analysis. No medicine does not contain one particle of opiate or narcotic, and therefore cannot possibly do harm—but always do good. Mrs. Geo. M. Kempf, Carleton Place, Ont., says: "I have given Baby's Own Tablets to my baby since he was two weeks old. He was a very small thin baby, but thanks to the Tablets he is now a big, fat, healthy boy." Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Ah Wing Lee was walking down Chestnut street the other morning when a dog ran up behind him, yelping and barking horribly. The end of the Celestial's pigtail rose in the breeze as he leaped aside in great alarm.

A benevolent philanthropy, seeing the terror painted upon the yellow countenance, hastened to pat him reassuringly on the shoulder.

"Come, come, my friend, you need not be afraid. The dog won't hurt you. Don't you know the old proverb, 'A barking dog never bites'?" Surely you—

"That's all very good," interrupted Ah Wing doubtfully. "You know plover and me know plover, but do dog know plover?"—Philadelphia Press.

"Do you desire my professional advice," said the specialist to the seddy visitor.

"I merely desire confirmation of a pet notion of mine that thorough mastication is essential to digestion."

"Certainly it is."  
"Exactly! I am glad we are in agreement. Perhaps you could spare me a quarter. I'd like to put my admirable theory into practice."

## THE COLLEGE COURSE.

Learning, Like Vaccination, Does Not "Take" on Every One.

In an article on "Shall the Girl Go to College?" Annette Austin writes in Smith's:

"Too much value cannot be accorded to a college course for girls who are capable of taking it. Unfortunately, however, college, like vaccination, does not take on everybody."

"Here it might be well to consider the advisability of sending a girl who desires to fit herself primarily for a housewife to a school of domestic science. 'Why,' asks a mother, 'if my girl does not intend to work for her living and if she really needs practical experience in housekeeping, should she not go directly to a school of domestic science, where she gets speedily and in concrete form the latest methods of cooking, house furnishing and caring for children?'"

If you are truly convinced that the best way to prepare for a vocation is to learn the details of its practice in a detached form, entirely away from all other routine facts in life, by all means send your girl to a domestic science school as soon as possible. But a course in domestic science without the preliminary mental discipline of at least two years in college is a very poor investment for the future.

To go through the forms of mixing so many ounces of flour and so many cups of butter to make a pound of cake, to bind up the broken finger of a woodman's maul and to practice laying a table for a most luxurious feast is not learning to be a housewife. It is merely putting in a stuffing of science details on a foundation of sand.

"Still, if your girl is delicate and unable physically and mentally to survive the most strenuous discipline of college it would be better to send her to a school where her mind will not be too severely taxed. It would be more humane to have her delicate delicacy in fancy deserts than to let her suffer in the maze of physics and philosophy."

## BILLIKEN STATUES.

The Smiling God of Things as They Ought to Be.

It is useless to try to explain the popularity of Billiken. You can buy him for a penny a year. He is now on the bookcase, over the desk, on the bureau and in the traveling bag.

He rivals the popularity of the jigsaw puzzle. When you are not solving puzzles you are buying or borrowing a new Billiken. The statues are now loaned for a hundred years at a penny a year. This is the new fad. This includes Billiken's throne and also the lock he brings.

The dreamer must be righteously paid or your luck is gone. You mustn't give Billiken to anybody. You must loan him at interest. So all the girls doing this as the fad of the year.

If a Billiken is sold it is by a hard hearted, money grubbing shop. After this Billiken is owned or loaned. What, you know, is the god of things as they should be. He will help you to see things right and give you the power to do them.

One of his best mottoes is, "Grit and begin to win."

If anybody can keep from grinning when gazing upon the grin of Billiken one must have a sour soul indeed!

### Her Little Ties Out Of.

A few days ago our discovery was made upon the death of Mile. Le Blanche, who died of injuries received while performing at the Toronto Exhibition, which showed how typically French she was. Her costume as an acrobat demanded that she wear the dainty pointed French shoes which have become so customary that the public demand them. Mile. Le Blanche, in order that she might wear the little shoes and conform to custom, had the little toe of each foot removed.

### Relic Hunters Balked.

An offer of \$2,500 has been made to the rector and church wardens of Framingham Church, Suffolk, England, for a tilting helmet which hangs over the tomb of the Duke of Devonshire, who was the hero of Flodden Field, but the present duke has notified the authorities that it must not be removed.

# Jungleville's Fire Brigade

**O**RANG-UTANG beat violently upon his hairy breast: Resounding through the forest boomed the warning to the rest.

Of Forest People reative 'neath the trees: Then Monarch Lion thunderously joined in the wild alarm, To which all creature listened as they wondered what new harm

Themselves did menace, and their families. Again the cry resounded, and the animals quick knew The meaning of this signal, as together they now flew To lend assistance with a ready hand; Breech-Owl reported fire amongst the huts not far away, And since with Men the beasts were friendly at this early day

They rushed to give what aid lay at command.

The Jungleville fire lada brigade sped rapidly to where Thatched cottages were burning: then each one did freely dare Most porous of rescues, deeds most bold— Rhinoceros ripped huts apart with his tank fire-axe keen, Long Python and the Elephant sent water cracks between— Good hoses they both made, so I've been told.

And Monkeys grabbed up natives with their paws and tails, and an A-down the back of tall Giraffe they alid and dropped below Upon the upturned shell of Turtleboy; 'Till, at last, all Men were safely resting on the ground, When to the brave fire-lada brigade the Human Peoples found Much need for words of gratitude and joy.

THE SHIP MADE BY GRANDPERE

**A**NDRE loved to be with Grandpere Etienne almost as much as he loved to play with little Rosemonde. And although Grandpere Etienne was old—and so feeble that he sadly needed the help given unasked by the sturdy lad—he really didn't seem any older than Rosemonde. A delightful chum was he, with his wonderful stock of ocean yarns.

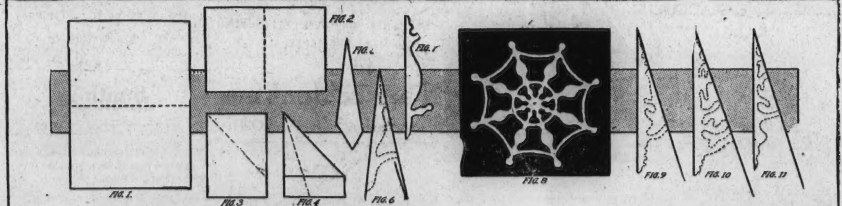

"Grandpere," began Andre, as he totted up the bank with a pet Etienne whined to mend. "Rosemonde and I are going to have a nice little ship as soon as we grow big, and we're going to sail together 'way out in the sea—until we come to an island, where we'll live forever and ever and be as happy as can be."

The old fisherman looked affect nately at the boy, and his eyes were moist as he replied: "You've earned it, lad; you've earned it fairly. Many a good turn have you done your old friend, and Etienne hasn't forgotten it."

"Now run along," he added, patting Andre gently on the back, "and show Rosemonde the ship you have gained for her."

"Dear old Grandpere," murmured sweet little Rosemonde, when her chum jubilantly displayed the prize, "I do believe that, next to you, I love him better than almost any one else in the world!" How proud they were of the "little Caroline"—which the letters of gleaming paint showed to be the name of their treasure, the very name, by the way, of Grandpere Etienne's fishing boat! "We shall sail it first thing tomorrow morning," said they, triumphantly. But so anxious was the lad to see the graceful boat upon the water that he gently rested it upon the surface without attaching the cord. In his excitement, he released his hold. In a moment, the "little Caroline" was out of reach and slowly bound on an unknown voyage. The water was too deep for Andre to attempt a rescue. Soon the ill-fated ship had passed beyond the entrance of the cove, nor was she ever seen again. With streaming eyes the "anxious" sought Grandpere. Their good friend seemed to regard the loss as a lost one. He comforted them, saying: "Don't worry, my children. I know of a way to get your ship and are stranded. Have lost their ship and are stranded. Just wait, and before many days another little Caroline will be back. The waves quite as faintly as did the shipper and mate with her when she started to cross the ocean."

## BEAUTIFUL DESIGNS from Old Newspapers

**A**T first thought an old newspaper would seem to offer little opportunity for amusement. Yet you cannot imagine how many artistic designs can be made from this old newspaper without the aid of any other material.

Let us describe, for instance, the

"mariner's wheel" shown in Figure 1, first take a whole newspaper sheet (of four pages) and fold it down the center, as in Figure 1. Now your paper has the form shown in Figure 2. Fold along the center line, according to Figure 2. And then fold upon a dotted line indicated in Figure 3. When this is com-

pleted you should have all the open end of the paper at the bottom. Folding upon the dotted line shown on Figure 4 you obtain Figure 5. You are now ready to begin tearing the paper. Be sure that all the folded edges of the paper are on the right-hand side. Tear along the dotted line noted in

Figure 6. Upon opening the resulting form—Figure 7—you have your "mariner's wheel."

Feeling variations of the "mariner's wheel" may be obtained by tearing the

## A Discouraged Hero

But one day, when I took the axe— My hatchet wouldn't cut— An' chopped down one old walnut tree

That never bore a nut, An' went an' told the truth right out. Pop just got mad, 'n' said: "You finish eatin' supper, sir, An' go straight off to bed!"

**M**OST ever since I learned to walk, Folks keep a-tellin' me My birthday's same as Washin'gton's.

An' how I ought to be Good, brave, an' noble, like he was, An' never tell a lie, An' maybe I'll be President, Just like him, by-an'-by.

An' when my troop marched up the road, With 'Towner comin' last, An' built a fort an' fired snowballs At enemies who passed, The people made an awful run, An' most of it was done By folks who said I ought to try To be like Washington.

It ain't no use; the more I try The more they scold at me. I'm tired of hearin' "Washington!" An' 'bout that cherry tree; An' when the twenty-second comes Next year I'm goin' to say It ain't MY birthday, an' I'll have Mine come some other day.

MINNIE E. HICKS.

### Washing Paint

**I**N EVERY HOUSEHOLD the paint must be cleaned, and it is always a problem to new housekeepers how this difficult task may be accomplished without streaking. China glass must be treated in quite a different way from the ordinary window paint; otherwise the dirt will collect in the uneven places, and it takes much unnecessary rubbing to remove it. The proper way to clean it is to add a little ammonia to the water; scrub with a soft brush and finish with chamois. No soap should touch it.

Ordinary paint may be scrubbed with good white soap or soap and ammonia. If it needs much cleaning, Paint should be kept clean from the first to keep it in good condition.

### Treatment of Hardwood

**I**N THESE DAYS of polished wood floors and hallways it is almost impossible, even with frequent polishing, to keep the wood from getting black. This is because the dust and dirt catches in the wax, and fresh rubbing only buries it deeper.

A good scrubbing with soap powder every month will remove the dirt, and it may be scrubbed just as energetically as the plinths of kitchen floors. Then, when the wax is applied with the aid of the usual heavy polish, the color of the wood will have returned to all the glory of its "as new."

**Would Sell His Chance.** Polite Gentleman—My lad, every chance of becoming President just as every English boy has the opportunity of being prime minister. I shall buy (thoughtfully)—We'll sell my chance for a dollar.

### A Baby Soldier

**T**HE picture shows you Prince Arthur of Connaught, one of our princes of the blood of England, dressed in his first suit of regimentals. A number of years have passed since Prince Arthur first donned this uniform, and now he is a young man. It is an interesting story as to how Arthur escaped being ruler of the duchy of Sax-Coburg-Gotha. When Prince Alfred, ruler of the duchy, died, there were elected Prince Arthur, the duke of Albany and a young relative. The story of what happened is told in this young relative's own words:

"Connaught met Albany, who was a jolly, decent chap, and much more popular than Connaught, and said to him: "Look here, you have heard, I sup-

IN HIS FIRST REGIMENTALS

pose, that they want me to go off to Germany and be duke of Coburg?" "Yes," said Albany. "You're contradicted cousin, I am going into the British army, and I am not going to learn German. So that's all I have to tell you. I am not duke of Coburg. It will just suit you."

"But," said Albany, "it does not want to go to Germany, and I do not want to leave Britain."

"Look here, young chap," said Connaught, who is a year or two older, "You've got to be duke of Coburg, and I'm no use talking rot. Next Sunday you are going to go to Windsor to meet your grandmother (Queen Victoria), and that you agree. If you don't, look out for yourself, and I'll be right back you. I'll tell you all round the schoolyard."

"So, of course, Albany had to give in, because he is supposed to be a really delicate chap, and Connaught could easily have kicked him if he had wanted to."

## Golden Rod.

The usual meeting of Golden Rod Literary Society was held on Tuesday evening. The night was fine, and a large number from Airdrie and the surrounding district assembled in the school. At the time for opening, Mr. B. Clayton President, and Mrs. J. Brown Secretary took their places, the President with the gavel called the meeting to order. A well written constitution was read by the Secretary, and unanimously adopted by the Society. A very short, tasty programme of songs, recitation and speeches, was given. After this a Geography contest was held. Capt. Weldon and Miss Pole acting as leaders. Mr. John Weldon acted as Judge. Miss Pole made a fine selection of good geographical subjects. Mr. Weldon's were more of the farming type, and apparently by clothes and looks knew more about bucking bronchos, but strange to say the farmers won out leaving five invincibles on the field. Mr. Oscar Millar held the position for his side to the last, but too many demands in so short a time taxed his memory too much. Mr. Millar is to be highly complimented for his fine knowledge of geography.

After spending a very enjoyable and pleasant evening, the meeting was brought to a close by singing the National Anthem. It was decided to hold the next meeting in two weeks, and the main characteristic to be short impromptu speeches on given subjects. J. H.

Dr. Edwards found it necessary to amputate the 2nd and 3rd fingers at the first joint. This was done on Tuesday and the patient is progressing nicely.

The Editor thanks the promoters of the Liberal Soiree held in the Batus School House for the kind invitation extended to him to attend their "Night with Burns" concert and supper. The reason for his non-attendance was that though the invitation was posted at Freshfield post office on January 20th, it did not reach him until February 4th, ten days after the concert.

### Malacca Belies.

Eastern standards of beauty differ, like the customs, from those of the west. In Malacca, we are told, the small waist and velvet eyes do not count, but instead the length of the neck is the criterion of beauty. The longer it is the more perfect the beauty. The girl of Malacca at a very early age is fitted with a metal collar which compels her to keep her head erect, and as she grows the collar is increased in size and by this means the neck is gradually elongated. A Paris contemporary, with the pretentious will be seen in European cities.

### Shopping in Scotland.

It has been said that the Scottish dialect is peculiarly powerful in its use of vowels, and the following dialogue between a shopman and a customer has been given as a specimen. The conversation relates to a plaid hanging at the shop door:—  
Customer (inquiring the material)—  
Do (wool)?  
Shopman—Aye, oo (yes, of wool).  
Customer—A' oo (all wool)?  
Shopman—Aye, a' oo (yes, all wool).  
Customer—A' oo (all same wool)?  
Shopman—Aye, a' oo (yes, all same wool).

### Nothing Doing.

"I've walked many miles to see you, sir," began the tramp, "because people told me you was very kind to poor chaps like me."  
"Indeed?" said the genial white haired old man. "And you are going back the same way?"  
"Yes, sir."  
"Ah, well, just contradicted that rumor as you go, will you? Good morning."

### A Blight Diversion.

"Anything new at the reception last evening?"  
"Well, yes. The genial host and the amiable hostess quarreled informally."

## PHYSICIAN GIVES ADVICE

Tells Why So Many Suffer from Catarrh and Rheumatism.

A distinguished physician, famous for his successful treatment of catarrh and rheumatism, kidney and bladder troubles, states as follows:—  
"Our climate being more or less damp and changeable, is bad for catarrh and rheumatism, and care must be taken not to let these troubles gain headway. In addition, he states that a great many Canadians are careless in their habits, and to this as much as climatic conditions is due a great deal of the trouble. Insufficient clothing and improper eating will cause rheumatic and catarrhal troubles in any climate."

This eminent authority gives the following as the simplest and best treatment known to science, and to it he gives credit largely for his success: Fluid Extract Cascara, ½ oz.; Fluid Extract Carina Compound, 1 oz.; Compound Syrup Sarsaparilla, 6 oz. Directions: One teaspoonful after each meal and at bedtime.

The ingredients are all vegetable, and have a direct and specific action on the liver, kidneys and bowels, eliminating all poisonous matter from the system. Any drugstore can dispense this, or you can buy the ingredients separately and mix at home by shaking in a bottle. Many of our readers should benefit by this article. Save the receipt.

### Making It Clear.

Lovely Daughter—Pa, Mr. Nicell proposed to me last night, and I referred him to you.  
 Pa—Well, I really don't know much about the young man, and I'll have to—

Lovely Daughter—When he calls to see you about it you are to receive him kindly—real fatherly, remember—and help him along all you can until he asks for my hand, and then you are to look alarmed and talk about what an angel I am and how many millionaires and dukes and princes I've refused, and then you are to reluctantly consent and give him your blessing.  
 "Oh, I am, am I? But suppose I don't. Then what?"  
 "I shall marry him just the same."

### Celluloid.

Celluloid is a plastic material composed of gun cotton and camphor. The gun cotton, or nitro-cellulose, is made by treating tissue paper with a mixture of nitric and sulphuric acids. The product is mixed with camphor and various pigments to produce the desired color, and the materials are thoroughly incorporated by means of heated rolls. It is subsequently submitted to great pressure. It is afterward molded into form by means of heated dies under pressure. It is very hard and elastic and takes a high finish.

### How to Keep Baby's Milk Warm.

Cover a hot water bag with one of cutting flannel in which there has been made a pocket about the size of the baby's bottle. When going to bed fill the bottle as usual and place it in the pocket. Then fill the water bag with hot water and put it at the bottom of the baby's crib, covering it with a blanket, says The Delinquent. When the baby wakes for his bottle in the night the milk will be ready to use at once.

IN THE RACE FOR BUSINESS

The gentleman on the tortoise represents the man who does not advertise—the one who tries to do business as it was done in the days of the falcon and the oil lamp. Are you in the glare of the electric light—in the automobile of Modern Methods?

Our Want Ads. are high voltage batteries, whether you want light or power—business publicity or competent help.
